Reminder: Due to the current epidemiological situation, visits to all accommodation users are not allowed! We kindly ask accommodation users to come to the reception and notify us in case they changed their contact information (cell phone number, e-mail address etc.).

Using the Internet

In all Student Centre Rijeka and University of Rijeka facilities, connection to the Internet is possible by using the CARNET network. To use the CARNET network, you need to have your own valid AAI@Edu.hr user account. The network in question is called **eduroam**.

To connect to the Internet, you must have a valid AAI@Edu.hr user account issued by your main institution (faculty). You can read the rules on the acceptable Internet use in the dormitory on the following link:

<https://www.srce.unizg.hr/usluge/studom/pravilnici>

In case of connection problems, at your disposal there are instructions for connecting to the Internet. You can find it on our web page.

Recommendations – online lectures

If you have online lectures, we would like to advise you to use the wired Internet connection. Due to the construction of the Student dormitory as well as the features of the Wi-Fi technology, wireless connection cannot be considered as a stable Internet connection for video streaming or tasks / projects (online lectures). A stable (wired) connection is necessary for those purposes.

In addition, unlike the Wi-Fi network where all users within signal reach are connected to one device and share speed in accordance with their usage (which can lead to lagging or ejection from the network), no such problem is present when using a wired connection. A wired-connected computer has its own bandwidth meaning the established connection is stable.

That is why it is extremely recommended to follow lectures or take exams while connected via wires.

Dangers of strong wind / rain

Strong wind and a lot of rain are not uncommon during the winter months in Rijeka. In case of strong wind, please:

- ✓ close all windows and doors and move away from the windows;
- ✓ stay inside the room/building;

- ✓ be careful when using the main doors – strong wind can knock them out from your hands which can cause major material and other damages;
- ✓ move in a bent position, in leeward, holding onto handrails and immovable objects;
- ✓ be careful because the roof tiles, façade, blinds, branches, boards, rocks etc. may fall;
- ✓ do not hide under trees;
- ✓ do not hide under the pavilions because objects could possibly fall from building;
- ✓ park your vehicle in the garage or in a lee.

We kindly ask users of accommodation to make sure all windows in the room are closed when leaving the room, especially if they will be out for a while.

If it is raining outside and you do not close the window, it is highly likely that water will damage the inside of the room. We would like to remind you that the accommodation user is obliged to compensate any damage he made on the property of Student Center Rijeka.
